ADAR**

both two and three-dimensional contemporary pieces using a multitude of materials to create his figurative art.

He was born in the south of Israel in 1969, spent his adolescence in Jerusalem and later on traveled around the world, including a stop of several years in Spain studying and developing his work. Ilan is a natural illustrator as well as an interior architectural designer; designing many residences, bars, clubs, fashion boutiques and offices all over Israel and abroad. As a boy he used to paint on sidewalks and obtained his allowance by drawing portraits of passersby in the streets of Jerusalem. Ever since, Ilan has continued to paint, sculpt and create. Today, he concentrates his time on his art at his studio located in the heart of Jaffa.

Ilan Adar's works can be found in galleries, private collections and homes in USA, UK, Germany, France, Spain, Singapore, Australia, Bulgaria, Israel, and on permanent display at "Tiroch Gallery" – Herzeliya, IL.
